

Course: Certified Cloud Security Knowledge (CCSK)

DESCRIPTION:

As cloud computing shows itself to be the future of information technology, several studies have pointed to the necessity of addressing the IT industry's skills gap and training professionals in both cloud computing and security. Since Cloud Security Alliance first released the Certificate of Cloud Security Knowledge (CCSK) in 2010, thousands of IT and security professionals have taken the opportunity to upgrade their skillsets and enhance their careers by obtaining the CCSK.
